ARE YOU READY?
This is a summary action plan for UM faculty and staff. Each unit also has its own continuity plan via UReady. The University Comprehensive Emergency Management Plan has guidelines for any type of crisis that may arise—and much of the information in this flyer is applicable for those situations.

BEFORE A HURRICANE
Be Prepared
• UReady continuity plans include key emergency telephone numbers. Each unit’s Human Resources Partner should download and print the emergency contacts report in Workday for all staff in their area; keep copies in multiple locations.
• Managers must designate Essential Personnel—those employees who will work before, during, and/or after an emergency. Refer to the Designating Essential Personnel tip sheet in Workday.

HURRICANE THREAT
Upon notification of a potential hurricane threat, all University employees should:
• Update your evacuation information in Workday.
• Ensure all data is on a network or cloud storage solution.
• Clear desktops and store books, papers, and equipment in a safe place away from windows.
• Make a list, with serial numbers if possible, and take pictures of all valuable equipment.
• Move desks, file cabinets, and other furniture away from windows. Close and latch all windows.
• Disconnect all electrical equipment.
• Take all personal belongings home; they are not covered by UM insurance.
• Photograph your work area with your smart phone.
• Obtain post-storm instructions from your supervisor.

PREPARING FOR IMPACT
Stay Informed, Get the Facts
• Official announcements regarding emergencies are issued via the Emergency Notification Network (ENN) and by University Communications prior, during, and after an event, and are posted on the UM home page, www.miami.edu.
• Additional information about clinical and research operations at the Miller School campus and satellite facilities is posted to the Miller School home page, www.med.miami.edu.
• The Storm Alert/Emergency Preparedness Web page at www.prepare.miami.edu is the complete source for all official information and is updated regularly. In addition to the website, "Storm Alerts" are sent out at scheduled intervals with key information.

AFTER THE STORM
Check In
• All employees should contact their supervisors as soon as possible to inform them of the status of their family and homes. Follow instructions from local authorities via radio and/or television.
• Do not return to the campus until the “all clear” is sent via the UMiami Emergency Notification Network (ENN) unless you are pre-designated as essential by your supervisor. Essential personnel should get their work schedules and locations from their supervisors.
