SEEDS Workshop

NSF Graduate Research Fellowship
Strategies for a Successful Proposal

This workshop offers First and Second year graduate students in STEM fields advice and strategies for writing a successful proposal for the NSF Graduate Research Fellowship Program. We will host a panel of UM graduate students, who have won NSF graduate Research Fellowships, and two faculty members for tailored advice. The panel will be followed by smaller discussion groups, where attendees can ask advice from panelists.

DATE/TIME:    September 29, 2011, 12:00 PM-2:00 PM
LOCATION:     SLAB Seminar Room (S/A 103, RSMAS Campus)
REGISTER:     Visit www.miami.edu/SEEDS by September 23, 2011

This highly interactive and participatory workshop is for First and Second year graduate students eligible for the NSF Graduate Research Fellowship. Space is limited to 45 participants. Lunch will be provided.
