SEEDS presents Team Science Seminar Series:

The Science of Team Science:
Understanding and Managing Teamwork
During Complex Collaboration

Tuesday, April 8th, 2014
Wesley Gallery
1:00-2:30PM

Stephen M. Fiore, Ph.D., is faculty with the University of Central Florida’s Cognitive Sciences Program in the Department of Philosophy and Director of the Cognitive Sciences Laboratory at UCF’s Institute for Simulation and Training. He is the current president of the Interdisciplinary Network for Group Research and is currently serving as a committee member for the National Academy of Sciences consensus study on the Science of Team Science. a founding program committee member for the annual Science of Team Science conference. He maintains a multidisciplinary research interest that incorporates aspects of the cognitive, social, organizational, and computational sciences in the investigation of learning and performance in individuals and teams. Dr. Fiore's primary area of research is the interdisciplinary study of complex collaborative problem solving and understanding how humans interact socially and with technology. Sponsored by a SEEDS You Choose Leadership Award to Dr. Sawsan Khuri, Research Assistant Professor, Department of Computer Science.

Space is limited to 30 participants. RSVP to www.as.miami.edu/SEEDS.
